SUGGESTIONS FOR FURTHER IMPROVEMENT

I. Laboratory & Workshop

1. Equipments in Mech. Engg. Deptt. has very outdated equipment and needs modernization
2. CAD/CAM, Vibration & Dynamics of m/c laboratories are non existent.
2. Many experiments are not being run for want of maintenance of equipment and acute shortage of supporting staff like fatigue testing equipments which are not in order.
4. Accute shortage of experimental setup in Electronics, IT & Computer Sc.

II. Computer Centre

1. The computer systems in the computer center are non existant. Only three P-IV machines are there with very little application software. No workstation, multimedia systems, graphics workstation & related softwares are available. In fact the computer center is still to be developed.
2. Internet facilities are still to be acquired
