

internshala.com

We launched a campaign exclusive for 1st-year students, in which we have handpicked a few part-time internships that your students can easily work on during their college semester.

Our main belief is that students who undergo these part-time internships will not only be ready for the competitive job market in the future but also gain financial independence, as all these internships carry an exciting stipend.

Also unlike other internships which require specific skill sets, the internships for 1st-year college students require basic communication and writing skills only.

I would like you to share this email with your 1st-year college students and encourage them to register for the event [here](#) or at internshala.com/i/1st_year. You may also [download](#) this letter and have it circulated to ensure every student gets to know about this campaign.

Note - **Students can register only till 26th September 2018.** Registration is compulsory for participation.
