Hi Ashutosh,

I'm sharing the registration link for UiPaths RPA, its promotional content and creative content. Please start sharing it amongst everybody. Lets try to get a minimum of 200 registrants.

-----  
50% of the organizations are likely to invest in RPA & create jobs in the future.

A right from scratch Bootcamp & Diploma series, to get an exclusive learning experience about RPA. Join now to start your journey in RPA with Experts.

Register Now: [https://bit.ly/MIT\\_RPADC](https://bit.ly/MIT_RPADC)

-----  
Any doubt you can always contact me. Speak soon.

Dear Ashutosh,

Hope you are doing well,

Great to speak to you. I am writing to you with the intention to partner with your esteemed college, in a quest to upskill the students of your college and provide them with various career opportunities in the field of Robotic Process Automation (RPA).

Hack2skill, quintessential learning, an upskilling platform has joined hands with UiPath, a global software company for robotic process automation for their upcoming **Certification Program, Robotic Process Automation(RPA) Developer Camp**.

We cordially **invite your college** to become a partner for this initiative and offer your students a chance to be a part of this certification program. RPA Developer Camp is free of cost Certification Program offered by **UiPath & Hack2Skill** exclusively for students with both technical and non technical background, to enable them to begin a learning journey in the futuristic technology.

Various benefits that the students can avail themselves by being a part of the **RPA Developer Camp** after completing the certification are-

- Internships and Job opportunities
- Freelancing
- Opportunity to learn & exclusive mentorship from Industry Experts.
- Certificates & Merchandise.

[All about RPA Camp](#)

We Also have the following upcoming events for which we would like you to be part of -

- Substrate Saturday- A Boot Camp by Polkadot India on the upcoming technologies in the Blockchain world, including Deep Tech, Substrate, Rust, etc. which includes insights on scope, development, and career opportunities in blockchain.

- DotFriday by Polkadot India- A knowledge and live interaction session on NFTs with a global leader of Punk.Network and NFTCastle.io, who will share insights on the same on the topic of discussion.

There are many perks for Hack2Skill partner colleges and students, which are mentioned as follows:

1. Official merchandise by Hack2Skill and the organizer for both students as well as faculty members acting as the POC.
2. Exclusive priority to the college for all upcoming events by Hack2Skill.
3. Opportunity to win cash prizes for students by participating in challenges.
4. A vast number of internship opportunities and job opportunities for students.

We would be elated to have your college as an academic partner for these initiatives and bring value and practical learning opportunities for the students and help them shape their knowledge graph.

I've attached the promotional content, creative and registration links for the blockchain events, please start sharing it. Do let me know the date confirmation for UiPath's RPA.

-----

It's time to slide into the world of Blockchain Technology with the upcoming Polkadot India events.

After two power-packed sessions on Defi and NFTs, DotFriday is returning with an even more interesting topic of discussion- Decentralized Autonomous Organisations, DAOs.

To interact with global leaders on the topic of DAOs, Join in on 21st January 2022, by registering on this link-[https://lu.ma/df\\_jan?tk=jhmRFu](https://lu.ma/df_jan?tk=jhmRFu)

Want to learn more about blockchain?

Then, register for Substrate Saturday, happening on 22nd January 2021, a Deep tech Bootcamp focusing on providing Hands-on Training on Blockchain Technology like Substrate, Rust, Solidity, and more

Participants will have the opportunity to avail the following perks-

1. Certificate on completion of the Bootcamp Series
2. Official Swags by Polkadot India on answering quizzes correctly.
3. Opportunity to interact with Mentors directly.

Can't wait any further? Register Now for Substrate Saturday- [https://hack2skill.com/hack/ssjan?utm\\_source=mitm&utm\\_medium=email](https://hack2skill.com/hack/ssjan?utm_source=mitm&utm_medium=email)  
See you there!

For queries, drop a mail at [support@hack2skill.com](mailto:support@hack2skill.com)

-----

To take the discussion further, **we can get on a call** and discuss in detail the prospect of this initiative.

# RPA Developer Camp

---

## About

Robotic Process Automation (RPA) is a software technology that enables the use of computer software robots to build, handle, manage and deploy repetitive, rule-based digital tasks. RPA is precise, accurate, and immune to boredom. It can also be scaled more easily than your human workforce. RPA can perform just about any rule-based work and can do so through interaction with any software application or website. It's a robotic connection to the human world of the computer user interface.

The demand for RPA Knowledge has surged over the years, and as estimated is expected to see a steep rise in the coming future due to the seamless process of deployment, pinpoint accuracy, and cutting down of resources.

In a quest to get young technology students acquainted with RPA and offer diverse career opportunities in the field, RPA Developer Camp, presented by UiPath and powered by Hackskill has been launched.

RPADC is a Bootcamp, followed by a Beginner's Certification Course offered by UiPath Academy to enable tech students to kickstart their journey with RPA, understand RPA from scratch, get industry insights, and practical learning opportunities.

## Who can Participate?

RPA Developer Tech Camp is open to-

1. Students of 1st, 2nd, 3rd, and 4th Year of Technical Institutes from across India
2. Freelancers
3. Working Professionals

## Perks -

RPADC aims at providing students, freelancers, and working professionals with right from scratch training regarding RPA, industry insights, and real-world experiences.

To add value to this learning experience, there are certain benefits that participants can avail themselves of on completion of the Certification.

- Certificate & T-shirt on successful Completion of the RPA Starter Course
- Access to Exclusive Internship Opportunities.
- Various Job opportunities.
- Certificate for college & Faculty POC

## Academic Partners

RPA Developer Camp is being conducted in partnerships with multiple Technical Higher Education Institutes across the country to facilitate industry learning experiences for students and organise certification workshops exclusively.
